

Title: "Friendship and mutual assistance" with the opening of the Ladies Circle Verodalla

Name of the Newspaper: **L'Observateur de l'Avesnois**

Press: Regional

Country: Liessies-France

Date: October 2007

Friday at the Chateau de la Motte, the International Association of the Ladies' Circle hosted Verodalla and her works. The Burgundian artist Veronique Dalla Favera presented two styles of production and design. The first, handcrafted decorative items along with some practical notes born of the artists' own imagination, made by her husband, and refined by Veronique. The Second: frames. These are partially made from a mineral paste originally in the shape of a brick. After shaping, sanding, and carving, the result is an innovative piece. The Ladies' Circle seeks to promote friendship and mutual assistance...

Title: Painting exhibition of Avesnes Ladies Circles – Château de la Motte

Name of the Newspaper: **La Voix du Nord**

Press: Regional

Country: Liessies -France

Date: October 2007

The Ladies' Circle 2 of Avesnes-Fourmie invites you to an exhibition by the young designer Veronique Dalla Favera. Born in Burgundy, it is from her small village of Culètre that she draws her inspiration. For Veronique Dalla Favera, art is a massive project. She creates "memos courses", "memos photos", "memos clefs" and even more decorative frames with poppies, lilies, tulips, and the like, which give any room a more cultured feel. The material used is a combination of plaster, plasticine, and clay. Being of very light composition, everything depends on the shaping and finishing, both of which are frequently long processes.

"It cannot be molded or cooked and its flexibility allows my imagination to run wild in this world of flowers. With each new creation I am faced with new technical problems that I treat as challenges and take great pleasure in solving", she says on her website.
